Kwik Ax

THE **NEW KWIK AX** COMBINES THE **FUEL-EFFICIENT** FIXED, SHARPENED BLADES OF THE **TIMBER AX** WITH THE UNIQUE BODY DESIGN AND **DOWNWARD ROTATION** OF THE POPULAR **G2 CARBIDE CUTTER**.

THIS **PATENTED** DESIGN OFFERS LOWER POWER REQUIREMENTS, **LOWER FUEL CONSUMPTION**, LESS HEAT GENERATED AND LESS TIME SPENT ON THE JOB SITE.

THE ORIGINAL, **TIMBER AX** ROTATES UPWARD IN FRONT, PICKING UP, LITERALLY, EVERYTHING IN ITS PATH. THE MATERIAL IS PROCESSED BETWEEN THE SHARPENED BLADES AND THE ADJUSTABLE SHEAR BAR, LEAVING A **CONSISTENT PARTICLE SIZE** AND A BEAUTIFULLY GROOMED JOB SITE.

THE **NEW KWIK AX** ROTATES DOWN IN FRONT LIKE THE SUCCESSFUL **G2 CARBIDE CUTTER**, RESULTING IN A VERY AGGRESSIVE FEED RATE FOR ALL **HIGH PRODUCTION** APPLICATIONS. CONTRACTORS INVOLVED WITH **R.O.W. WORK** NEED TO KEEP MOVING FORWARD AS FAST AS POSSIBLE, REDUCING VEGETATION TO GROUND LEVEL, WITHOUT GROOMING THE SITE.

THE **KWIK AX**, WHEN NEEDED, CAN ALSO PRODUCE A **VERY FINE FINISHED PRODUCT** BY BACKDRAGGING TO REPROCESS THE MATERIAL ON THE GROUND.

Sharpened "Ax" Type Blades - Downward Rotation

**Mow Grass
and Weeds**

**Eliminate
Brush**

**Mulch Branches
or Prunings**

**Cut 6 to 10
inch Trees**
