SPECIFICATIONS

## // Built for the Daily Grind

The Stump Ax has everything you want in a stump grinder attachment: reliability, speed, visibility and control. We gave it a heavy-duty, practical design with an industry-leading cutting wheel to help you get the job done without any downtime. It is available for low- and high-flow skid steers and excavators. And because it has the Loftness® name on it, you know it's got to be good.

## // STUMP AX™ FEATURES

### **Rigid Mount:**

The rigid mounting style helps operators work faster than articulating stump grinder attachments do.

### **Angled Hitch With Forward-Reaching Boom:**

This specialized design provides superior control with excellent visibility.

### **Phantom Wheel With Tomahawk Teeth:**

The Phantom Wheel with Tomahawk teeth from Leonard<sup>®</sup> are highly regarded by vegetation management professionals for their high strength and fast cutting performance. The Phantom Wheel also has cut-outs to create a see-through effect for further improved visibility.

### **Mounting Options:**

The Stump Ax can be equipped with a universal skid steer mount. Custom excavator mounts are also available with or without pins.

### **High-Torque Radial Piston Motor:**

A high-torque radial piston motor provides plenty of power with fast recovery rates.

### **Chain Deflector:**

A specialized discharge with chain deflector provides superior control of the wood chips.
